ADJOURN

COON CREEK WATERSHED DISTRICT BOARD OF MANAGERS' MEETING

The Board of Managers of the Coon Creek Watershed District held their regular meeting on Monday, May 28, 2024, at the Coon Creek Watershed District Office.

1. Call to Order

The meeting was called to order at 5:30 PM Board Members Present: Erin Lind, Jim Hafner, Dwight McCullough, & Mary Campbell Board Members Absent: Jason Lund Staff Present: Tim Kelly, Bobbie Law, Jon Janke, Corinne Elfelt, Justine Dauphinais, Dawn Doering, & Michelle Ulrich Staff Present via Zoom: Erik Bye & Abbey Lee

2. Approval of the Agenda

Board Member McCullough moved to amend the agenda, moving Permit Items 8,10, & 11 to the Consent Agenda. Seconded by Board Member Lind. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

Board Member Campbell moved to approve the amended agenda. Seconded by Board Member McCullough. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

3. Announcements

Mr. Kelly Aannounced that Coon Creek Watershed District was celebrating its 65th anniversary. The Coon Creek Watershed District was the 2nd Watershed District formed by citizen petition in Minnesota.

4. Open Mic/Public Comment

No one was present for comment.

CONSENT ITEMS

5. Approval of Minutes of May 13, 2024

8. Approval of Bills:

Claims totaling \$176,821.41 on the following disbursement list will be issued and released upon Board approval.

Grand total	176,821.41

The following Permit Items were moved to the Consent Agenda.

8. 24-020 CenterPoint Energy - 152nd Ave.

The purpose of this project, located at 152nd Ave NE Ham Lake, is to complete a directional bore of approximately 355 feet of 2-inch-diameter for a plastic natural gas distribution pipeline crossing County Ditch 57.

The staff recommendation was to approve permit application number P-24-020 with 1 condition and 1 stipulation as presented in the staff report:

Conditions to be Met Before Permit Issuance:

Rule 2.7 - Procedural Requirements

- 1. Submittal of a performance escrow in the amount of \$2,005.00.
- **Stipulations:** The permit will be issued with the following stipulations as conditions of the permit. By accepting the permit, the applicant agrees to these stipulations:
 - Submittal of as-builts for utility crossing under all ditch crossings that shows 4-foot separation is maintained between the bottom of ditch and top of utility line.

10. 24-021 Gateway Fiber

The purpose of this project, located throughout multiple ditch systems in Blaine and Coon Rapids, is to directionally bore new fiber optic lines.

The staff recommendation was to approve permit application number P-24-021 with 1 condition and 1 stipulation as presented in the staff report:

Conditions to be Met Before Permit Issuance:

Rule 2.7 - Procedural Requirements

- 1. Submittal of a performance escrow in the amount of \$2,005.00.
- **Stipulations:** The permit will be issued with the following stipulations as conditions of the permit. By accepting the permit, the applicant agrees to these stipulations:
 - Submittal of as-builts for utility crossing under all ditch crossings that shows 4-foot separation is maintained between the bottom of ditch and top of utility line.

11. 24-002 Ham Lake Lot Adjustment

The purpose of this project, located on University Ave. NE in Ham Lake, is to construct a single-family home and associated stormwater treatment features.

The staff recommendation was to approve permit application number P-24-002 with 2 conditions and 3 stipulations as presented in the staff report:

Conditions to be Met Before Permit Issuance:

Rule 2.7 – Procedural Requirements

1. Submittal of a performance escrow in the amount of \$3,100.00.

Rule 3.0 – Stormwater Treatment

 Provide proof of recording of a fully executed Operations and Maintenance Agreement for the perpetual inspection and maintenance of all proposed stormwater management practices after review and approval by the District.

Stipulations: The permit will be issued with the following stipulations as conditions of the permit. By accepting the permit, the applicant agrees to these stipulations:

- Submittal of as-builts for the stormwater management practices and associated structures listed in Tables 2 and 3. including volume. critical elevations and proof of installation for hydrodynamic separators.
- 2. Completion of post construction infiltration tests on Infiltration Basin 1 and 2 by filling the basin to a minimum depth of 6 inches with water and monitoring the time necessary to drain, or multiple double ring infiltration tests to ASTM standards. The Coon Creek Watershed District shall be notified prior to the test to witness the results.
- If dewatering is required, provide DNR dewatering permit prior to construction. If a DNR permit is not required, provide well-field location, rates, discharge location, schedule and quantities prior to construction.

Board Member Campbell moved to approve the consent agenda items. Seconded by Board Member Lind. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

POLICY ITEMS

7. Joint Powers Agreement with Anoka County on Lower Coon Creek

Managers discussed the project timeline. Ms. Lind requested more information regarding the eight residents adjacent to the Lower Coon Creek Corridor Restoration Project.

Mr. Janke spoke to the intent of waiting on the finalization of the Joint Powers Agreement. The reasoning is that the County is the largest landowner being affected by the project. He noted that with the completion of this agreement, staff would then begin working one-on-one with those other landowners.

Board Member Campbell moved to approve for signature and move forward with the Joint Powers Agreement with Anoka County on Lower Coon Creek. Seconded by Board Member McCullough. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

PERMIT ITEMS

9. 23-077 Coon Rapids Strip Mall

Manager Lind questioned the soil stabilization timeline as it seemed like this project was being allowed more time than normal to address the stabilization of stockpiles of soil on site. Ms. Lee spoke to erodibility factor noting that the soil type on this project site had a low possibility of eroding. The purpose of this project, located in Coon Rapids, is to construct a small strip mall and associated stormwater treatment features.

The staff recommendation was to approve permit application number P-23-077 with 3 conditions and 3 stipulations as presented in the staff report:

Conditions to be Met Before Permit Issuance:

Rule 2.7 – Procedural Requirements

1. Submittal of a performance escrow in the amount of \$2,485.00.

Rule 3.0 – Stormwater Management

2. Provide proof of recording of a fully executed Operations and Maintenance Agreement for the perpetual inspection and maintenance of all proposed stormwater management practices after review and approval by the District.

Rule 4.0 – Soils and Erosion Control

- 3. Update the erosion and sediment control plan to stabilize soils and soil stockpiles within 7 days of inactivity.
- **Stipulations:** The permit will be issued with the following stipulations as conditions of the permit. By accepting the permit, the applicant agrees to these stipulations:
 - 1. Submittal of as-builts for the stormwater management practices and associated structures listed in Tables 2 and 3, including volume, critical elevations and proof of installation for hydrodynamic separators.
 - Completion of post construction infiltration tests on the south and west Infiltration Basins by filling the basin to a minimum depth of 6 inches with water and monitoring the time necessary to drain, or multiple double ring infiltration tests to ASTM standards. The Coon Creek Watershed District shall be notified prior to the test to witness the results.
 - 3. If dewatering is required, provide DNR dewatering permit prior to construction. If a DNR permit is not required, provide well-field location, rates, discharge location, schedule and quantities prior to construction.

Board Member Lind made a motion to approve permit P-23-077 with 3 conditions and 3 stipulations. As stated in the Application Review Report. Seconded by Board Member Hafner. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

DISCUSSION ITEMS

12. Proposed Process and Timeline for District Administrator's Review

Mr. Kelly gave an update on the employment agreement extension, review, and succession planning. He noted that the employment agreement is currently being reviewed by the District attorney. Committee members have received the previous agreement and a newly drafted version. The District Administrator's employee review is scheduled for June 13^{th,} 2024. Ms. Lind called for the Board to put some thought into the length of time required by the Administrator to give notice of his resignation. Mr. Kelly explained that his notice would be 60 days or longer regardless of the agreement. He

understands the importance of knowledge transfer within his high-level role. The review committee will report to the full Board regarding the review on the 17th of June.

13. 2025 Budget Projected Operating Costs

Mr. Kelly gave an overview of the operating costs for 2025. He noted that staff usually provides a reason for any changes or increases of over 10%. However, inflation and changes in costs over the past 18-24 months have left staff focusing on the larger and more significant increases in operating costs.

Board Member Lind moved to receive the 2025 Budget Projected Operating Costs report. Seconded by Board Member McCullough. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

14. 2025 Budget Projected Capital Equipment

Mr. Kelly explained that this is equipment and assets that would incur depreciation. He highlighted an office improvement project that may be rolled over into 2025. He also addressed the possible purchase of one or two District vehicles depending on District and resource needs.

Board Member Campbell moved to receive the 2025 Budget Projected Capital Equipment report. Seconded by Board Member Lind. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

INFORMATIONAL ITEMS

15. Legislative Summary – LMC

Mr. Kelly gave an overview of the League of MN Cities legislative summary. He noted the expressed frustration with the process and outcomes of the recent legislative session from all parties involved. He listed several items pertinent to the District including:

- A bonding bill was not brought up for floor vote in either body this session
- Earned sick and safe time modifications and the additional operating costs associated
- Several proposals for open meeting law, but none passed

Board Member McCullough thanked staff for keeping up with local legislation and praised their ability to inform the entire Board on those matters.

ADJOURN

Board Member McCullough moved to adjourn at 5:49 p.m. Seconded by Board Member Campbell. The motion carried with 4 yeas (Board Members Lind, Hafner, Campbell, and McCullough) and no nays.

AGENDA NUMBER:	6
ITEM:	Administrator's Report

AGENDA:

Consent

REQUESTED ACTION:

Receive report.

ADMINISTRATOR'S EVALUATION

Upcoming Board Considerations

- Public Hearing on Comprehensive Plan and Comments
- Permit Review Fee structure and amounts.

District Capacity and Capability

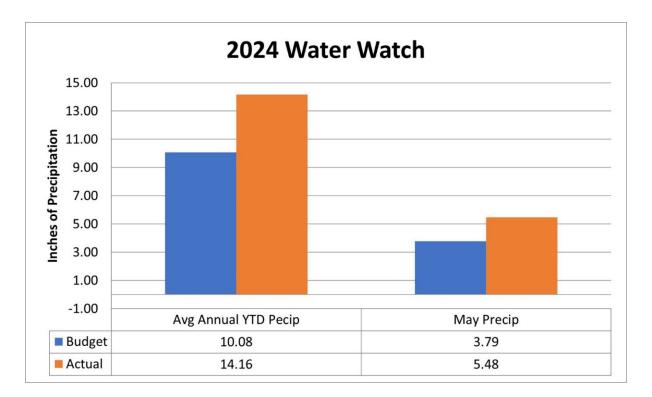

The District possesses the required resources and is mostly trained to undertake most of its legislative mission for which it is organized or designed.

The District can accomplish most required tasks to standard under most conditions.

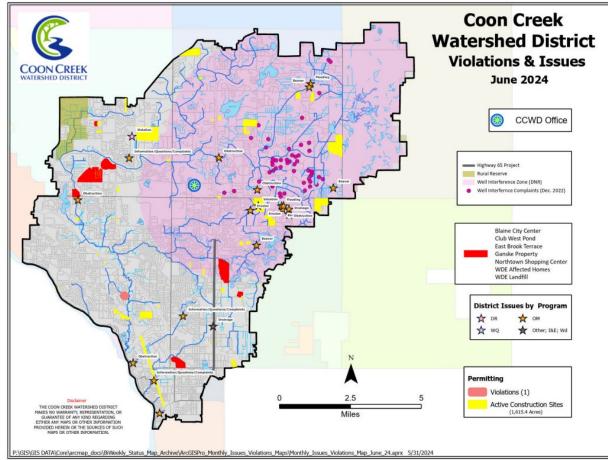

MANAGEMENT SITUATION

The District averaged 5.5 Inches of precipitation in the month of May. That leaves the District 1.7 inches or 45% above for the month and 4.1" or 40% above for the year. The current precipitation trend is slightly above the 30-year average high.

According to the latest US Drought Monitor release, the District has been free of drought for 8 weeks. Water level and discharge in streams and ditches are on the high end of the normal range. Water level in Lakes, ponds, wetlands, and shallow groundwater are back to the normal range after several years of drought.

Problems, Issues, and Concerns

Cooperator Actions

Agency	Status
Legislature	Session adjourned May 20Summary was presented at the last meeting
Met Council's Imagine 2050- Water Policy Plan	Released for public reviewComments are due Tuesday, June 11th

Collaborator Actions

Collaborator	Description
Anoka Conservation District	Including CCWD sites for Pollinator plantings grants.
MN DOT	Preparing to start replacement of HWY 65 @ Coon Creek crossing.
	HWY 10 planning considerations for Ditch 54-3 culvert maintenance/extension and roadside ditch modifications to improve Marshland and Thorpe Park drainage.
Anoka County Highway Dept	Fabricating Creek signage; deploying in Coon Creek subwatershed first, about 24 signs.
	Coon Creek Boulevard at Coon Creek is substantially complete.
	East River Road from Hanson Boulevard to Egret Boulevard mill and overlay under construction.
Andover	Inquired about starting D37 subwatershed assessment.
Blaine	Public works is implementing "optimized" enhanced street sweeping scenario.
Columbus	Interviewing candidates for City Administrator.
Coon Rapids	Held Public Works Open House with about 250 attendees.
Fridley	Held Environmental Fun Fair with about 350 attendees.
Ham Lake	Started construction of 152 nd culvert replacement on Ditch 58.
Spring Lake Park	

Crooked Lake Area Association	The fluoridone treatment to control invasive hybrid watermilfoil continues with herbicide concentration monitoring through June.				
	Submitted a grant application to Anoka County Parks seeking increased watercraft inspection hours at the public access to prevent the spread of AIS.				
	Working with Andover in hopes to plan maintenance dredging of the access to improve accessibility for recreation.				
	Put out notifications on social media and email blast regarding the Eastbrook Terrace groundwater contamination situation.				
Ham Lake Lake Association	Coordinating invasive aquatic plant survey and treatment work to control invasive milfoil and curly leaf pondweed.				

STAFF ACTIVITIES

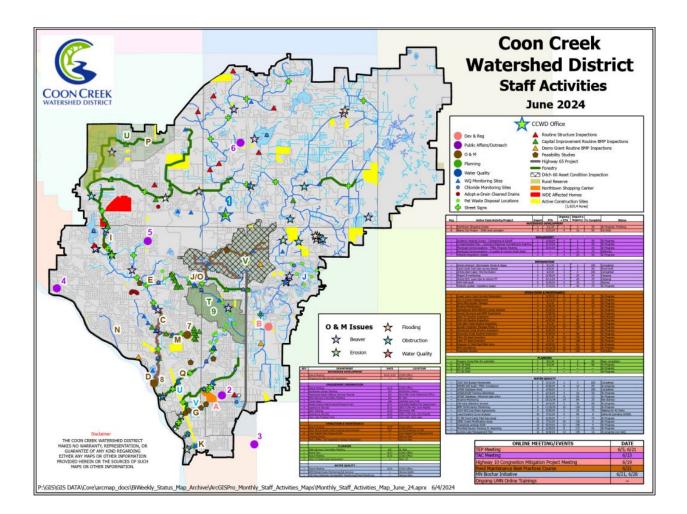

Special Projects

Anoka County Transition:

Benefits Replacement: Had first meeting and preliminary benefit proposal June 4.

Comp Plan Review:

• Reviewing and preparing responses to comments.

MANAGEMENT DISPOSITION Equipment and Facilities:

All equipment is in good working condition.

Staffing:

- <u>Health</u>: The overall staff's health is good.
- <u>Personnel Manual</u>: The rewrite of the personnel manual has started as prep for the major revisions coming in 2025 following complete separation from the County.
- <u>Staff Availability</u>:
 - Over the month of June, the District staffing will be at 84%
 - The staff member on FMLA until July 1.
- <u>Vacancies/New Hires</u>
 - No vacancies.

Sustaining Effort:

<u>Succession Planning</u>: Development of the Succession Plan continues as a working document in progress.

MEETING DATE:	June 10, 2024
AGENDA NUMBER:	7
ITEM:	Advisory Committees Report
AGENDA:	Policy Discussion Information

ACTION REQUESTED

Receive Report

BACKGROUND

The Citizen Advisory Committee (CAC) met in person on May 8th. The Technical Advisory Committee (TAC) did not meet in May.

- The next CAC meeting scheduled: July 10th at 4:30 pm hybrid with Zoom.
- The next TAC meeting scheduled: June 13th at 8:30 am hybrid with Zoom.

ISSUES/CONCERNS

Citizen Advisory Committee (CAC)

Most CAC members were present in person at the CCWD office. CCWD staff members, Jessica Lindemyer, Jon Janke, and Tyler Thompson were also in attendance. CAC member Gary Nereson was absent. The meeting was chaired by CAC Member Joe MacPherson.

- 1. Open Forum: No discussion items.
- 2. District Update: Paddy inquired about the wetland property behind his house that is being converted into a wetland bank, wondering if it would become a public space with a boardwalk. Jon confirmed that there were no current plans for the property owner to make the wetland a public space.
- **3.** Creek Signage: Jessica summarized a variety of District updates including the upcoming 65th anniversary celebration and District Tour. There was a general discussion about current water levels and drought conditions.
- 4. Staff Spotlight: Director of Operations, Jon Janke, introduced himself to the Committee along with Field Operations Manager, Tyler Thompson, providing a general overview of their work.

Jon described the purpose of the District's Operations & Maintenance (O&M) Program, highlighting specific tasks such as inspections, surveys, maintenance, and ditch management. There was a general discussion about what O&M work is conducted by inhouse staff and what type of work is contracted out. Tyler noted that, generally, if the work cannot be completed by hand or with handheld tools, the District will rely on its partners or contractors to conduct the work.

Jon provided an overview of capital projects including the various types of projects, the implementation cycle, project identification, and project prioritization; highlighting the

Lower Coon Creek Corridor Restoration Project at Coon Rapids Dam Regional Park as an example. There was a general discussion about how Iron Enhanced Sand Filters work, how water is diverted for certain projects, raingarden maintenance, E. coli removal, and how the District budgets for ongoing project maintenance.

5. Annual Report: The committee was provided with a copy of the annual report on April 23rd. The committee had no feedback on the report, other than that they felt it was a good summary of what the District had been up to in the previous year.

Technical Advisory Committee (TAC)

The May 9th TAC meeting was canceled.

MEETING DATE:	June 10, 2023
AGENDA NUMBER:	9
ITEM:	Election of Officers

POLICY IMPACT: Policy
FULICY INFACT: FOIC

ACTION REQUESTED

Hold elections for required statutory offices

BACKGROUND

The District has traditionally held elections for Board offices at the first meeting following the organic date and potential appointment of new Manager(s) by the County Board.

PERTINENT FACTS

Minnesota Statutes 103D.315 Subd. 3. **Officers**. ...the managers must elect different managers as president, secretary and treasurer.

District policy, adopted in 1992 (District Policy 1.4), stipulates that the Board of Managers shall have four officers:

- 1. President
- 2. Vice-President
- 3. Secretary
- 4. Treasurer

ISSUES/CONCERNS/RISKS

Current Officers

Office	2022	Elect
President	Jim Hafner	
Vice-President	Erin Lind	
Secretary	Jason Lund	
Treasurer	Mary Campbell	

OPTIONS FOR ACTIONS

1. Hold elections for each office

RECOMMENDATION

Hold elections for all offices.

MEETING DATE:	June 10, 2024
AGENDA NUMBER:	10
ITEM:	Public Meeting on Stormwater Pollution Prevention Plan
POLICY IMPACT:	Policy
FISCAL IMPACT:	Budgeted

REQUEST

Hold an annual public meeting to review District performance in stormwater management and receive comments from the public.

BACKGROUND

In 2003, the Coon Creek Watershed District was designated a Special Municipal Separate Storm Sewer System (MS4) by the Minnesota Pollution Control Agency (MPCA) because of its responsibilities relating to the public ditch system and its role in conveying stormwater. As an MS4 the District is required to complete a Storm Water Pollution Prevention Plan (SWPPP).

The current Federal Permit (MNR040000) is held by the Minnesota Pollution Control Agency and was approved on November 16, 2020. The NPDES permit requires CCWD to advertise and conduct an annual public meeting to review the SWPPP. It also requires the submittal of an Annual Report to MPCA by June 30. MPCA has given an exception again in 2024 because MPCA is developing a new reporting format that is not yet available.

ISSUES/CONCERNS

<u>1. Public Meeting Notice</u>: Notice of the Public Workshop was posted in the official newspapers of the CCWD on May 24 and 31, 2024, in the Anoka County Union-Herald and The Life, and on the CCWD website since May 29th, 2024.

- **<u>2. Agenda</u>**: Below is an agenda for the review.
 - 1. Background MS4 Designation
 - 2. Resource Condition
 - 3. Program Activities (Minimum Control Measures)
 - a. Public Education and Outreach
 - b. Public Participation/Involvement
 - c. Illicit Discharge Detection and Elimination
 - d. Construction Site Runoff Control
 - e. Post-Construction Runoff Control
 - f. Pollution Prevention/Good Housekeeping

RECOMMENDATION

- 1. Hold a public meeting to review CCWD's performance in stormwater management.
- 2. Receive comments from the public.

Public Hearing Notice

The Board of Managers of the Coon Creek Watershed District will hold a Public Hearing at their regularly scheduled meeting, in person and virtually by Zoom:

5:30 PM Monday, June 10, 2024 **Coon Creek Watershed District** 13632 Van Buren St NE Ham Lake, MN 55304

All residents of the Watershed District are invited to attend a public hearing on the Coon Creek Watershed District Storm Water Pollution Prevention Plan (SWPPP) required as part of the NPDES Program and administered by the Minnesota Pollution Control Agency (MPCA). For more information go to <u>www.cooncreekwd.org/swppp</u>

To get the Zoom meeting link, contact Coon Creek Watershed District by 3pm on June 10th at 763-755-0975 or blaw@cooncreekwd.org

Permit Application Review Report Date: 6/5/2024

Board Meeting Date: 6/10/2024 Agenda Item: 11

Applicant/Landowner: Metropolitan Airports Commission (MAC) Attn: Jacob Bronder 8891 Airport Road NE Box C1 Blaine, MN 55449

Project Name: 2024 Airport Rd & GA Blvd Pavement Reconstruction

Project PAN: P-24-009

Project Purpose: Reclamation and partial reconstruction of Airport Road, in-kind culvert replacement

Project Location: Airport Rd NE from Taxilane Connecticut to Taxilane Oklahoma, General Aviation Blvd, South Entrance Road, and West Entrance Road, 8891 Airport Road Box C1, Blaine

Site Size: size of parcel - 359.49 acres; size of disturbed area - 8.91 acres; size of regulated impervious surface - 0.92 acres

Applicable District Rule(s): Rule 2, Rule 4, Rule 6

Recommendation: Approve with 2 Conditions and 2 Stipulations

Description: The Metropolitan Airports Commission is proposing the reclamation and partial reconstruction of Airport Road and Georgia Blvd and in-kind replacement of 2 culverts within the Blaine Airport property. The project will disturb 8.91 acres and fully reconstruct 0.92 acres, which is the associated regulated impervious. The site drains to County Ditch 41. The relevant water resource concerns are erosion and sediment control and culvert replacement which corresponds to Rules 4 and 7. See Figure 1: Project Location and Figure 2: Site Plan.

Conditions to be Met Before Permit Issuance:

Rule 2.7 – Procedural Requirements

S

1. Submittal of a performance escrow in the amount of \$6,455.00.

Rule 4.0 – Soils and Erosion Control

2. Update the erosion and sediment control plan to include the following:

 Update Sheet C041 to stabilize soils and soil stockpiles within 24 hours of inactivity.
 Show double row of perimeter control on west side of Airport Road due to potential nearby wetlands.

- **Stipulations:** The permit will be issued with the following stipulations as conditions of the permit. By accepting the permit, the applicant agrees to these stipulations:
 - 1. Submittal of as-built (invert, pipe material, pipe size) for culvert installation within County Ditch 41.
 - 2. If dewatering is required, provide DNR dewatering permit prior to construction. If a DNR permit is not required, provide well-field location, rates, discharge location, schedule and quantities prior to construction.

Findings

Fach the train

Fees and Escrows (Rule 2.7):

The applicant (MAC) is considered a government agency and is therefore exempt from an application fee or a review and inspection fee deposit. The applicant will be required to submit a performance escrow in the amount of \$6,455.00. This corresponds to a base escrow of \$2,000, plus an additional \$500/acre of disturbance (8.91 acres of land disturbance proposed).

Stormwater Management (Rule 3.0):

The proposed project does not create a cumulative total of 10,000 sf or more of new or fully reconstructed impervious surface, or 5,000 sf or more of new or fully reconstructed impervious surface for non-residential or multifamily residential within one mile of and draining to an impaired water. The proposed project is not a public linear project where the sum of the new and fully reconstructed impervious surface is equal to one or more acres. Stormwater Management standards do not apply.

Soils and Erosion Control (Rule 4.0)

Rule 4.0 applies to the proposed project because it includes land disturbing activities of 1 acre or more.

The proposed project drains to Ditch 41. The soils affected by the project include Isanti and Lino and have a soil erodibility factor of 0.15 or greater. Disturbed areas are not consistently proposed to be stabilized within 24 hours, as required. The proposed erosion and sediment control plan includes biorolls, inlet protection and perimeter control. The erosion control plan does not meet District requirements because a double row perimeter control is not included near expected wetlands and soil and soil stockpiles are not consistently proposed to be stabilized within 24 hours. See attached Figure 3: Erosion and Sediment Control Plan.

Wetlands (Rule 5.0)

The proposed project does not include activities which result in the filling, draining, excavating, or otherwise altering the hydrology of a wetland. Rule 5.0 does not apply.

Floodplain (Rule 6.0)

Rule 6.0 applies to the proposed project because it includes land disturbing activities within or adjacent to the boundary of the 100-year flood elevation as mapped and modeled by the District.

The regulatory floodplain elevation is 904.1 ft MSL. The application proposes the placement of 23.5 cubic yards of fill within the floodplain. This a one-time deposition of less than 50 cubic yards,

therefore compensatory storage is not required. See attached Figure 4: Floodplain Impact.

Drainage, Bridges, Culverts, and Utility Crossings (Rule 7.0)

The proposed project does not include land disturbing activities which construct, improve, repair, or alter the hydraulic characteristics of a bridge profile control or culvert structure on a creek, public ditch, or major watercourse. The proposed project does not include land disturbing activities which involve a pipeline or utility crossing of a creek, public ditch, or major watercourse.

The proposed project does not include land disturbing activities which construct, improve, repair or alter the hydraulic characteristics of a conveyance system that extends across two or more parcels of record not under common ownership and has a drainage area of 200 acres or greater. Rule 7.0 does not apply.

Buffers (Rule 8.0)

The proposed project does not include a land disturbing activity on land adjacent or directly contributing to a Public Water, Additional Waters, High or Outstanding Ecological Value Waters, a Public Ditch, or Impaired Waters/waters exceeding state water quality standards. Rule 8.0 does not apply.

Variances (Rule 10.2)

The proposed project is not requesting a variance from the District's rules, regulations, and policies. Rule 10.2 does not apply.

Permit Application Review Report Date: 6/5/2024

Board Meeting Date: 6/10/2024 Agenda Item: 12

Applicant/Landowner: City of Andover Attn: Jason Law 1685 Crosstown Blvd NW Andover, MN 55304

Project Name: City Project 23-13 Trunk Watermain & Sanitary Sewer Improvements

Project PAN: P-24-024

Project Purpose: directional drilling of sanitary sewer and water main utilities, open-cut installation of sanitary sewer and water main utilities, and pavement patch reconstruction

Project Location: Andover Boulevard from Vale Street NW to Prairie Road NW, Crosstown Boulevard, Prairie Road NW, Andover Boulevard, Andover

Site Size: size of parcel - 8.5 acres; size of disturbed area – 5.7 acres; size of regulated impervious surface - 0.5 acres

Applicable District Rule(s): Rule 2, Rule 4, Rule 6, Rule 7

Recommendation: Approve with 2 Conditions and 1 Stipulations

Description: The City of Andover is proposing the installation of new sanitary sewer and water main utilities in several locations along Crosstown Blvd, Prairie Road and Andover Blvd. This scope of work includes a directional bore crossing of County Ditch 20. The project will disturb approximately 5.7 acres and reconstruct 0.5 acres of impervious. The project will largely drain to County Ditch 20. The relevant water resource concerns are erosion and sediment control, floodplain, and ditch crossings which correlate with District Rules 4, 6, and 7. See attached Figure 1: Project Location and Figure 2: Site Plan.

Conditions to be Met Before Permit Issuance:

Rule 2.7 – Procedural Requirements

1. Submittal of a performance escrow in the amount of \$4,850.00.

Rule 4.0 – Soils and Erosion Control

2. Update the erosion and sediment control plan to include double rows of perimeter control near delineated wetlands and the stabilization of soils within 24 hours of inactivity.

Stipulations: The permit will be issued with the following stipulations as conditions of the permit.

By accepting the permit, the applicant agrees to these stipulations:

1. Submittal of as-builts for the watermain crossing under County Ditch 20 that shows 4foot separation is maintained between the bottom of ditch (870.8 ft, NAVD 88) and top of utility line.

Construction Plans	Bolton & Menk	04/23/2024	05/22/2024

Exhibits:

Findings

Fees and Escrows (Rule 2.7):

The applicant is a government agency and is therefore exempt from an application fee or a review and inspection fee deposit. The applicant will be required to submit a performance escrow in the amount of \$4,850.00. This corresponds to a base escrow of \$2,000, plus an additional \$500/acre of disturbance (5.7 acres of land disturbance proposed).

Stormwater Management (Rule 3.0):

The proposed project does not create a cumulative total of 10,000 sf or more of new or fully reconstructed impervious surface, or 5,000 sf or more of new or fully reconstructed impervious surface for non-residential or multifamily residential within one mile of and draining to an impaired water. The proposed project is not a public linear project where the sum of the new and fully reconstructed impervious surface is equal to one or more acres. Stormwater Management standards do not apply.

Soils and Erosion Control (Rule 4.0)

Rule 4.0 applies to the proposed project because it includes land disturbing activities of more than 5000 square feet and within 50 feet of and drains to a waterbody.

The proposed project drains to County Ditch 20. The soils affected by the project include Sartell and Isanti and have a soil erodibility factor of 0.15 or greater. Disturbed areas are not proposed to be stabilized within 24 hours, as required. The proposed erosion and sediment control plan includes inlet protection, perimeter control, erosion control blanket, and street sweeping. The erosion control plan does not meet District requirements because soils and soil stockpiles are not proposed to be stabilized within 24 hours, as required and a double row of perimeter control should be included near all wetlands. See attached Figure 3: Erosion and Sediment Control Plan.

Wetlands (Rule 5.0)

Wetlands exist near the site, but no impacts are proposed. Wetlands were delineated under PANs W22-028, W23-027, and 20-153. The boundary and type applications have all been reviewed and approved.

Floodplain (Rule 6.0)

Rule 6.0 applies to the proposed project because it includes land disturbing activities within or adjacent to the boundary of the 100-year flood elevation as mapped and modeled by the District.

The regulatory floodplain elevation is 879.6 ft MSL. There is no proposed floodplain fill associated

with the project.

Drainage, Bridges, Culverts, and Utility Crossings (Rule 7.0)

Rule 7.0 applies to the proposed project because it includes land disturbing activities which involve a pipeline or utility crossing of a creek-public ditch or major watercourse.

The regulated waterway is Public Ditch - County Ditch 20. The proposed crossing involves replacement of a pipeline or utility via directional bore. The top elevation of the pipeline or utility line must be placed at least 4 feet below the approved low elevation of the ditch or waterway. The approved elevation is 870.8 NAVD 88. The proposed top elevation of the pipeline or utility line is 865.6 NAVD 88, which is more than 4 feet below the Approved low elevation of the waterway.

Buffers (Rule 8.0)

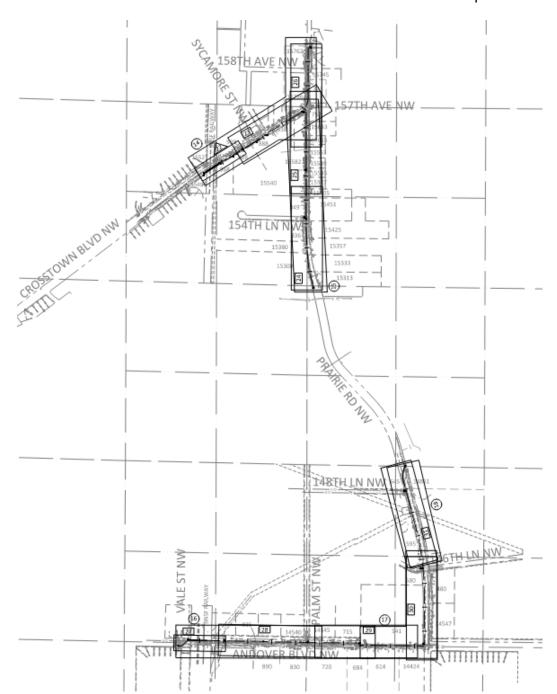

The proposed project does not include a land disturbing activity on land adjacent or directly contributing to a Public Water, Additional Waters, High or Outstanding Ecological Value Waters, a Public Ditch, or Impaired Waters/waters exceeding state water quality standards. Rule 8.0 does not apply.

Variances (Rule 10.2)

The proposed project is not requesting a variance from the District's rules, regulations, and policies. Rule 10.2 does not apply.

Permit Application Review Report Date: 6/5/2024

Board Meeting Date: 6/10/2024 Agenda Item: 13

Applicant/Landowner: Anoka County Parks Attn: Seth Bossert 550 Bunker Lake Blvd. NW Andover, MN 55304

Project Name: Bunker Hills Beach Sewer and Water

Project PAN: P-24-025

Project Purpose: Installation of sewer and water utilities

Project Location: Bunker Hills Campgrounds and Park, 50 Bunker Lake Blvd NW, Andover

Site Size: size of parcel - 123.0 acres; size of disturbed area - 0.44 acres; size of regulated impervious surface - 0.02 acres

Applicable District Rule(s): Rule 2, Rule 4

Recommendation: Approve with 2 Conditions and 0 Stipulations

Description: Anoka County Parks is proposing the installation of sewer and water utilities within Bunker Hills Campgrounds and Park. The project will disturb approximately 0.44 acres and reconstruct 0.02 acres of impervious. The project will largely drain to Coon Creek. The relevant water resource concern is erosion and sediment control, which correlates to District Rule 4. See attached Figure 1: Project Location and Figure 2: Site Plan.

Conditions to be Met Before Permit Issuance:

Rule 2.7 – Procedural Requirements

1. Submittal of a performance escrow in the amount of \$2,220.00.

Rule 4.0 – Soils and Erosion Control

2. Update the erosion and sediment control plan to include a note to stabilize soils within 24 hours of inactivity.

Stipulations: None.

Exhibits:

Exhibits:							
Exhibit Type	Exhibit Author	Signature Date	Received Date

Construction Plans	TKDA	04/25/2024	05/01/2024				

Findings

Fees and Escrows (Rule 2.7):

The applicant is a government agency and is therefore exempt from an application fee or a review and inspection fee deposit. The applicant will be required to submit a performance escrow in the amount of \$2,220.00. This corresponds to a base escrow of \$2,000, plus an additional \$500/acre of disturbance (0.44 acres of land disturbance proposed).

Stormwater Management (Rule 3.0):

The proposed project does not create a cumulative total of 10,000 sf or more of new or fully reconstructed impervious surface, or 5,000 sf or more of new or fully reconstructed impervious surface for non-residential or multifamily residential within one mile of and draining to an impaired water. The proposed project is not a public linear project where the sum of the new and fully reconstructed impervious surface is equal to one or more acres. Stormwater Management standards do not apply.

Soils and Erosion Control (Rule 4.0)

Rule 4.0 applies to the proposed project because it includes land disturbing activities of 10,000 square feet or more and is within 300 feet of and drains to a waterbody.

The proposed project drains to Coon Creek. The soils affected by the project includes Sartell and Lino which have a soil erodibility factor of 0.15 or greater. Disturbed areas are not proposed to be stabilized within 24 hours, as required. The proposed erosion and sediment control plan includes inlet protection and perimeter control. The erosion control plan does not meet District requirements because the construction plans do not include a statement that soils will be stabilized within 24 hours of inactivity. See attached Figure 3: Erosion and Sediment Control Plan.

Wetlands (Rule 5.0)

The proposed project does not include activities which result in the filling, draining, excavating, or otherwise altering the hydrology of a wetland. Rule 5.0 does not apply.

Floodplain (Rule 6.0)

The proposed project does not include land disturbing activities within the floodplain as mapped and modeled by the District. Rule 6.0 does not apply.

Drainage, Bridges, Culverts, and Utility Crossings (Rule 7.0)

The proposed project does not include land disturbing activities which construct, improve, repair, or alter the hydraulic characteristics of a bridge profile control or culvert structure on a creek, public ditch, or major watercourse. The proposed project does not include land disturbing activities which involve a pipeline or utility crossing of a creek, public ditch, or major watercourse.

The proposed project does not include land disturbing activities which construct, improve, repair or alter the hydraulic characteristics of a conveyance system that extends across two or more parcels of record not under common ownership and has a drainage area of 200 acres or greater. Rule 7.0 does not apply.

Buffers (Rule 8.0)

The proposed project does not include a land disturbing activity on land adjacent or directly contributing to a Public Water, Additional Waters, High or Outstanding Ecological Value Waters, a Public Ditch, or Impaired Waters/waters exceeding state water quality standards. Rule 8.0 does not apply.

Variances (Rule 10.2)

The proposed project is not requesting a variance from the District's rules, regulations, and policies. Rule 10.2 does not apply.

COON CREEK WATERSHED DISTRICT Request for Board Action

MEETING DATE:	June 10, 2024
AGENDA NUMBER:	14
ITEM:	2025 Program Budget
AGENDA:	Information

ACTION REQUESTED

Receive the budget report and provide any direction for staff.

PURPOSE & SCOPE OF ITEM

Addresses the core costs for operating the District.

BACKGROUND

This portion budget category addresses required or needed services provided by specialized companies and firms with which the District contracts. The costs addressed are shown below:

	202	4		2025		6/5/2024
Service Providers	I	Projected	Current	Change	Request	
Administraion						
Building Improvements	10,000	10,000	-	0	0

ISSUES/CONCERNS/OPPORTUNITIES

1. <u>Overall change</u>: The Rough Draft Budget is \$5,794,507. This is a 3-million-dollar increase (119%) in expenditures on the program budgets from the 2024 budget. This is not either the net increases in the overall budget or taxes. However, this increase certainly influences both of those.

IMPLICATIONS FOR DISTRICT BUDGET

1. Allows us to remain on schedule to meet our interim 2027 goal in pursuit of our Comprehensive 2034. objectives and 2045 goal of substantial achievement of the TMDLs within the watershed.

CONCLUSIONS

1. These are preliminary figures.

RECOMMENDATION

Receive report.

COON CREEK WATERSHED DISTRICT Request for Board Action

AGENDA:	Discussion
MEETING DATE:	June 10, 2024
AGENDA NUMBER:	15
ITEM:	2024 Tour Itinerary

ACTION REQUESTED

Review, Comment and Accept

PURPOSE & SCOPE OF ITEM

The annual tour serves two purposes

- 1. Provides an opportunity to see projects in the field
- 2. Focus on a specific issue or topic and its implications in the field

BACKGROUND

The tour has been held almost every year since 1991. Tours have covered everything from general inspections of the entire watershed to specific issues such as wetlands or aquatic species. For the past 12 years, they have been held in June.

ISSUES/CONCERNS

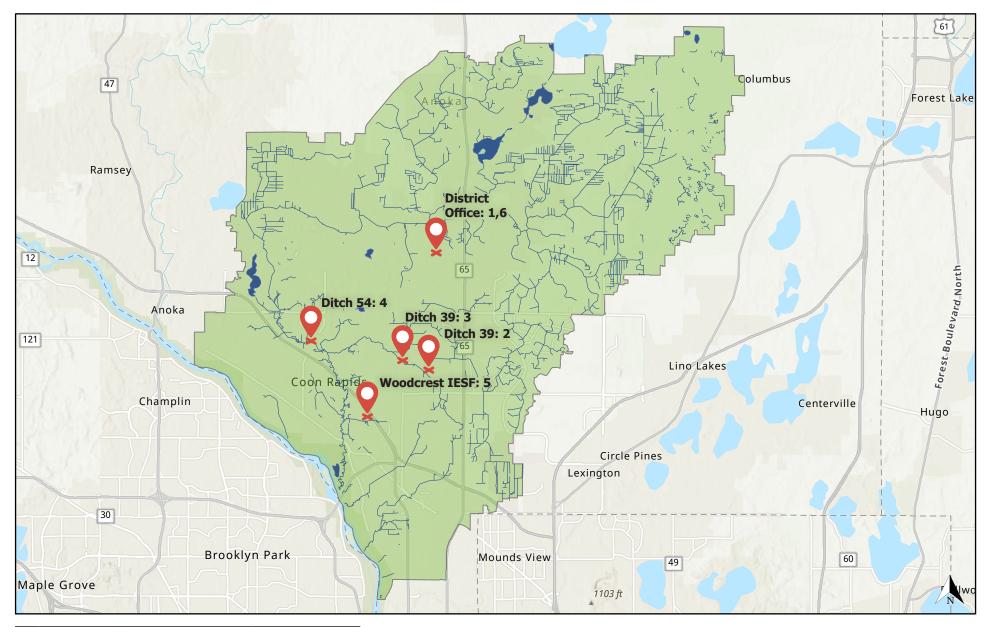

The focus of this year's tour is on Phase 1 of the Comprehensive plan. Phase 1 emphasizes organization and initiation or establishment of a solid foundation that is adaptable, agile but still pursues our mandated goals and remains responsive to local priorities.

We plan to visit three sites

- 1. Ditch 39 Subwatershed: Ditch 39 in Blaine and Coon Rapids is an example of a drainage area that contributes significant pollutants to Sand Creek which is impaired. Infrastructure is old but opportunities exist with existing public ownership, scheduled major public road and sewer projects and unregulated land.
- 2. Ditch 54: Ditch 54 is the main stem of Coon Creek in Coon Rapids and is "the bottom of the funnel". It is the place to see the need for a "watershed" approach and the growing complexity and continually changing drainage area.
- 3. Woodcrest Creek Iron-Enhanced Sand Filter: The Board has visited this site several times in recent years to see and inspect the filter. It is also a site where there is considerable Chloride discharged through ground water.

THOUGHTS/QUESTIONS?

Coon Creek Watershed District Tour 2024

	Location	City
1	CCWD Office	Ham Lake
2	Ditch 39 - Little League Park	Blaine
3	Ditch 39 - Square Pond	Blaine
4	Ditch 54 - Coon Creek	Coon Rapids
5	Woodcrest Park	Coon Rapids
6	CCWD Office	Ham Lake
